

Get In2Cloud

Quickly realise the advantage of the Oracle Cloud

There are many good reasons why Oracle E-Business Suite (EBS) customers may, or may not, consider moving to the Cloud. With that said, if you're questioning whether the time has come for your organisation, the answer is probably, "Yes."

It's natural to feel trepidation about moving from on-premises systems to cloud applications. Common concerns include the possible loss of custom functionality and potential business disruption, but with Inoapps GetIn2Cloud offering, we will leverage your investment in your Oracle EBS application and migrate you onto Oracle Cloud in less than 12 weeks.

Reuse your investment in Oracle EBS

Minimal disruption to enter the new age of ERP

In2Cloud helps you realise the advantage of Oracle Cloud

Reduce TCO & CAPEX costs – dramatically improve ROI

Why Do It?

Bring agility & efficiency to support company growth

Leverage technology to be more efficient and focused on value-add tasks

Meet millennials' expectations of new working models

Get the best out of the latest generation of ERP with minimal change effort

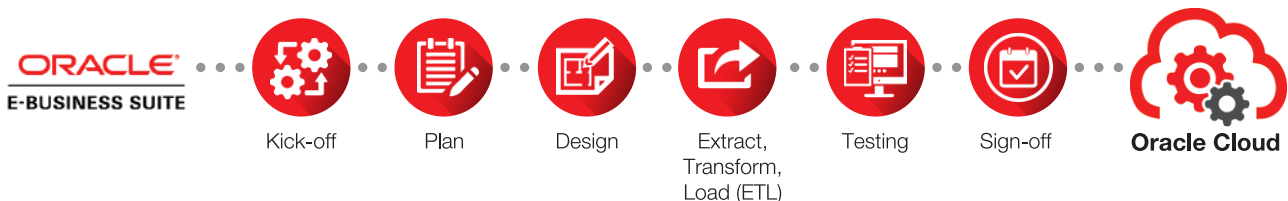

Drop non-business strategic costs; reduce overall TCO

Reduce CAPEX costs; improve ROI.

In2Cloud Process

Typical migration from only **12 weeks**

POC available from £18k and we:

01 Extract current configuration from EBS

02 Review the EBS configuration in conjunction with the client

03 Auto load the configuration into the Oracle Cloud ERP/HCM demo system. 2 weeks of client access is provided after this step.

04 Identify what of the current EBS configuration is incompatible with Oracle Cloud

05 Identify customisations

06 Refund the cost of the POC if the customer chooses to engage Inoapps for their Cloud Project

Inoapps will provide consultancy services to support the above 6 steps within the POC process. These consulting services will include some training and enablement elements to familiarise you with the new look and feel of Oracle Cloud during the trial period. In addition to enablement and training, Inoapps will help to define, with your input, your best route to the cloud. We will also assist you in developing a credible business case to support your move.

Why Inoapps?

Inoapps is an award-winning, global Oracle Platinum Partner. For more than a decade we have focussed on delivering cutting edge Oracle solutions, which help our global clients to drive operational excellence and maximise the benefits of their technology investments.

Our depth of expertise and commitment to our customers is demonstrated by consistent recognition from Oracle and the fact that our first customer is still a customer more than ten years later.
