Get In2Cloud

Quickly realize the advantage of the Oracle Cloud

There are many good reasons why Oracle E-Business Suite (EBS) customers may, or may not, consider moving to the Cloud. With that said, if you're questioning whether the time has come for your organization, the answer is probably, "Yes."

It's natural to feel trepidation about moving from on-premises systems to cloud applications. Common concerns include the possible loss of custom functionality and potential business disruption, but with Inoapps GetIn2Cloud offering, we will leverage your investment in your Oracle EBS application and migrate you onto Oracle Cloud in less than 12 weeks.

| Reuse your investment in Oracle EBS | Minimal disruption to enter the new age of ERP | In2Cloud helps you realize the advantage of Oracle Cloud | Reduce TCO & CAPEX costs – dramatically improve ROI |

Why Do It?

Bring agility & efficiency to support company growth

Leverage technology to be more efficient and focused on value-add tasks

Meet millennials' expectations of new working models

**Get the best out of the latest generation** of ERP with minimal change effort

Drop non-business strategic costs; reduce overall TCO

Reduce CAPEX costs; improve ROI.

POC available from $30K and we:

01 Extract current configuration from EBS

02 Review the EBS configuration in conjunction with the client

03 Auto load the configuration into the Oracle Cloud ERP/HCM demo system. 2 weeks of client access is provided after this step.

04 Identify what of the current EBS configuration is incompatible with Oracle Cloud

05 Identify customizations

06 Refund the cost of the POC if the customer chooses to engage Inoapps for their Cloud Project

Inoapps will provide consultancy services to support the above 6 steps within the POC process. These consulting services will include some training and enablement elements to familiarize you with the new look and feel of Oracle Cloud during the trial period. In addition to enablement and training, Inoapps will help to define, with your input, your best route to the cloud. We will also assist you in developing a credible business case to support your move.
